For those who said there are
no alternatives to instructor-led,
face-to-face security training,
they were right...
Until now.

Welcome to the new way to get certified!

For the past six years, Dean Bushmiller has been succeeding at training in a highly interactive Web environment, using all the tools available. More than 700 people are CISSPs and CISM's because they followed the plan.

Get Ready in Just 10 Weeks

Get a highly-customized training experience through Live Web Training. Our Live Web Training system is a blended learning method, including live online training with our experienced instructors, interactive training sessions with peers and guides and access to a host of additional resources and information.

Our Lunch-n-Learn Full Program is a 10-week customizable series that puts you in control of your learning- and your life. Meet with your class live online each week for integrated instructor-led training, complete your weekly self-study modules and homework, collaborate with colleagues and even make up missed sessions when it's convenient. After just 10 weeks of learning, you'll be ready for your certification exam!

What about bootcamps?

Bootcamps are terrific, but their success rate is lower than the plan's. You want more time to absorb more information and study. If you take some time on your own to prepare and then meet a few times per week, you can still get all that bootcamp data and more.

What if this is more of the same?

Contact us to register for a trial run if you would like to try the live web training before you buy.

What is the full program?

The full program is your low cost, low pressure, no travel way to get your CISSP or CISM. The plan is to continue to work and have a life and still get your certification. Participants meet an hour every Tuesday, Thursday, and Saturday from 12:30 to 1:30pm CST for 10 weeks. You receive office hours, your Welcome Kit including specialized materials, course materials, a guided schedule of assignments, and test taking strategies.

The full program gives you scheduled topics and assignments designed to be digestible chunks. By not having to absorb everything all at once, students have responded by passing the exams and enjoying the materials.

Go green and save money, too?

Yes. Cut your carbon footprint by a ton. L&L is at your location--no flying, no hotel, no hassle. Cost reduction per person due to travel and expenses: \$2500 - \$4000
Company savings: Cost reduction for lost productivity: \$3000

Cost

\$1950 - Lunch-n-Learn, 10 weeks + self study

\$2500 - Lunch-n-Learn, 10 weeks + self study + exam voucher
